Basic Management Employability Screen

Introduction

This report is the reflection of years of development and research based upon the groundbreaking work of Nobel nominee, Dr. Robert S. Hartman. The information in the report was codified and tested by one of Hartman’s students, Wayne Carpenter, and uses a process based in mathematics for capturing clearly and precisely, one’s thinking and decision-making processes. This assessment is set apart from self-report instruments that rely on the respondent to tell you about themselves and that almost assuredly will contain many biases. The science behind this report has been used by individuals and organizations around the world and the Standard Hartman Profile provides data that is objective, quantitative, universally applicable, and virtually impossible to bias. Selecting the right person for a job is one of the single most important factors that determine an Organization’s success. The Basic Management Employability Screen is designed as a critical aid in support of this process.

The report is divided into five sections with the first being the Personal Management Inventory. This section gives a verbal description of the candidate being looked at, what type of attitudes they have, how they will solve problems, their self-image, personal motivators, and stress points. The second section provides a verbal description of how the individual will contribute to Team Synergy.

The third section of the Basic Management Employability Screen represents the risk of the individual being able to access the talent to perform specific capacities consistently in all situations at work. There are two components, a Core Skills Graph and a two page Capacities Risk Chart. Each is organized by categories, such as Planning and Organizing, Getting Things Done, and Managing Self. The higher the risk the less chance the candidate will be able to access the talent needed to perform the specific competency. To make the best use of this section, review the graph and look over the capacities listed in the charts to determine which five capacities are the most critical to job performance. Over time you will also come to easily recognize the capacities that are consistently found in your top performers and the positions they hold within your organization.

The fourth section provides a list of Prioritized Strengths and Prioritized Development comments. This section is designed to let you know the strengths and limitations of the candidate, not only in the direct comments made, but also by the number of comments made. The strongest candidates will have 9 Prioritized Strengths and 3 Prioritized Development comments. The next strongest candidates will have 8 and 4, the next 7 and 5 and the weakest 6 and 6. The comments are also designed to let you know what capacities the candidate will be able to access readily on the job and which competencies they will have the most difficulty accessing.

The fifth and final section contains Prioritized Interview Notes which are intended to provide suggestions and guidance for the interview process while giving you a deeper understanding of the individual’s capabilities and developmental needs.

Prioritized Core Strengths

1) Seeing Potential Problems: (Managing Problems) (MGT-16)-Excellent Potential
   Excellent capacity for identifying crucial issues in complex and confusing situations.

2) Conceptual Organization: (Planning And Organizing) (MGT-22B)-Excellent Potential
   Individualistic, potentially innovative approach to thinking can lead you to novel ways to organize and plan.

3) Concrete Organization: (Planning And Organizing) (MGT-21C)-Excellent Potential
   Individualistic, unconventional thinking gives you the ability to organize things in novel, innovative ways.

4) Using Common Sense: (Managing Problems) (MGT-14B)-Excellent Potential
   Excellent ability to see and understand how to get things done in a practical, common sense way.

5) Short Range Planning: (Planning And Organizing) (MGT-19H)-Excellent Potential
   The ability to see and understand planning in novel, unconventional, and individualistic ways.

6) Role Satisfaction: (Managing Self) (MGT-33A)-Excellent Potential
   Combination of confidence about their ability to perform and an urgency to push ahead and get things done.

7) Intuitive Insight: (Managing Problems) (MGT-15)-Excellent Potential
   Very Good ability for relying on intuitive insight and inner 'gut' feelings for identifying and solving problems.

8) Insight Into Others: (Managing Others) (MGT-1A)-Excellent Potential
   Keen insight into others combined with a positive attitude builds a realistically optimistic evaluation of others.

9) Sensitivity To Others: (Managing Others) (MGT-4A)-Excellent Potential
   The ability to be open to the needs and interests of others without being too subjective and involved.

Prioritized Development Comments

1) Health/Tension Index: (Managing Self) (MGT-35B)-Conditional Risk
   Imbalance in their thinking can generate anxiety, frustration, and despair as they seek to match expectations to actions.

2) Attitude Toward Authority: (Managing Activities) (MGT-11C)-Situational Risk
   Strong individualism will lead them to covertly or overtly challenge or disregard existing rules and authority.

3) Proactive/Conceptual Thinking: (Managing Problems) (MGT-17C)-Situational Risk
   Attention to being individualistic and inventive creates a lack of attention to consequence of decisions and actions.
**Prioritized Interview Notes**

1) **Health/Tension Index: (Managing Self) (MGT-35B)-Conditional Risk**  
They tend to have difficulty adapting when decisions and priorities do not match their expectations and to look for ways to get out of the stress even if they must make a mistake or refuse to take action.

2) **Attitude Toward Authority: (Managing Activities) (MGT-11C)-Situational Risk**  
They tend to disregard rules, norms, and conventions about how things should be done and do things their own way regardless of consequences. Test their ability to accept ideas and ways of doing things other than their own.

3) **Proactive/Conceptual Thinking: (Managing Problems) (MGT-17C)-Situational Risk**  
Disregard for consequences of decisions can lead to a lack of accountability shifting blame to anyone other than themselves. Test their willingness to admit the negative consequences of their decisions and take corrective action.
